THE PACIFIC

Commercial Advertiser.

SATURDAY, JUNE 12. THREE disappointed politicians run the neighbor-When a man has a sore head he should not show it.

THE Gazette has a labored article undertaking ence of every one, namely, that to have good servants it is necessary to have a good master.

Now in regard to the extremely disquieting rumors which for some months have been rife in this community as to possible Cabinet changes, we think all men of sense must by this time feel an assurance that His Majesty is not intending to make any appointment (if he should at any time make Cabinet changes) which will not secure the respect and confidence of the public. His knowledge of human nature and of men, and his experience in the world, amply suffice to enable him to avoid any such risk, as some people have foolishly imagined that he was contemplat-

In our issue of April 10th, we spoke briefly the liability of our isolated island community to be gulled by pretentious strangers, and prophesied that we should sometimes find that our confidence, so hastily given, was misplaced. Recently a case has come to light in which a character of the kind suggested has been revealed as a most thorough fraud, who has lived among us for several months in high feather on false pretences. Our article above mentioned perfectly fits his case, as much so as if he had been measured for it. While the whole affair has its ludierous side, and one cannot refrain from smiling at the ease with which some of our apparently shrewdest citizens were deceived by a smooth tongue and a specious appearance, yet others have been made to suffer pecuniarily, and the result will probably be that, from this dear bought experience of our citizens, some really merited suspicion and neglect.

Now that the proposed subsidy for the Chinese line of steamers has been effectually sat upon by the Legislature, the next in order is that for the Pacific Mail. We note that in the Budget the Ministers have asked for the sum of \$24,000 for this purpose, for the two years, or \$1,000 per month. This sum must appear to be a mere bagatelle to the wealthy Pacific Matl Company, which gets hundreds of thousands from the Colonies in the way of subsidy. It is however quite a consideration for this small and comparatively poor government. One thousand dollars a month expended on our roads, bridges and landfor that purpose, would, at the end of two years. make a very perceptible change for the better all argued, that the company desire a subsidy from week with passengers for the United States. and conceded. If that is so, then let it be reduced to a nominal sum. But in any case, we have opposed and shall continue to oppose the paying of any subsidy whatever to foreign steam-ship lines, as a useless and wasteful expenditure of the public money. If the subsidy were withdrawn Asia to-morrow, the boats would continue to call here so long as it pays them to do so, and our grant of \$1,000 per month will secure us no greater facilities or better accomodations than would be the

case if we paid them nothing. The item will probably be reached in the bill

sometime during the coming fortnight. J. M. Davidson, who resided here and was a ticle in the June number of the Californian, entitled " The Hawaiian Islands." The article is more about the Islands, only Honolulu and its immediate vicinity is treated of. The style is and the climate. We note several inaccuracies ed upon in consequence of the recent escape of a of statement, as, for instance, where it is said that " Honolulu bas a population of all races of about seventeen thousand," which is rather in excess of the fact; "After the 9 o'clock bell rings, the natives must retire; "-it would be a good thing if it were so, in the case of some of the younger ones :- that an invoice of snakes was brought here along with insectiverous birds; &c., &c. But these are trifling blemishes, and the

writer has an evident aloha for his late home and is a just criticism : " Many causes can be assigned for the rapid decrease in the Hawaiian race: first, the introduction of contagious and infectious diseases by foreigners;

next, the general attempt by the natives to wear lothing which, when wet, is never changed-and Hawaiians never avoid rain ; and the most fruitful cause has been forcing upon the people a government and system of laws for which they were not prepared by any previous education, making habits and customs long indulged in, and regarded as harmless and innocent, misdemeanors and crimes, ounishable by fine and imprisonment. These things broke the spirit of the people Before the adoption and enforcement of such laws, the people should have been prepared by education to look with proper discrimination upon the mala prohibita of the penal codes. When Solon was asked if be had given his people the best possible code of laws, he answered, "The best they were capable of receiving." Had the same moderation and wisdom governed those who formulated the laws and govrament of Hawait, the population would in all probability have remained undiminished."

ON THE first of the present month, a special message was sent by the King to the Legislative Assembly, in which it was set forth by His Majesty that to the interests of the country demand a further and more permanent establishment of our intercourse with China," which, it is held, "will add a tenfold resource of revenue and profit to our country;" and alluding to the memorial of C. C. Moreno, Esq., on behalf of the China Merchants' Steamship Company for a money subsidy of \$18,-000 per annum, the message concludes by recommending the memorial to the consideration of the

Article 31 of the Constitution says; "The person of the King is inviolable and sacred. His Ministers are responsible." We must therefore hold that the views and sentiments expressed in the Royal Message on the question of a subsidy to a Chinese line of steamers, and on the importance of opening up a more permanent and extended intercourse with the "Flowery Kingdom,"are those of the Ministry. It is needless to say that we deeply regret this evidence of the forgetfulness, or lack of appreciation, on the part of Ministers, of the true interests of the Hawaiian people, who, while in danger of nameless ills tled the claims of contractors under the War Of- from the Chinese already here, will most assuredfice by giving them assignments upon the tithes ly be utterly swamped as a nation if the door for for the next year. Chinese immigration is still farther opened. This Costume it will be by the establishment of the proposed

line of steamers, which we are modestly asked to subsidize to the amount of \$18,000 per annum. The report of the Committee to whom was referred the message and the memorial, brought in on Wednesday last, treats the subject mainly from a commercial view, without any reference to

One peculiar circumstance will be noticed. The report is signed, as a member of the Committee, by His Excellency the Minister of the In-

W. E. CHANDLER." CHICAGO May 22.-The Tribune's Galena special says: The Gazette, whose writer is a personal friend of General Grant, will publish tomorrow a statement denying the current item that G. W. Childs, of the Philadelphia Ledger, has information that General Grant will order his name withdrawn from the Chicago Convention. He says that neither Childs, nor any one else, has authority to make such an assertion. General Grant's name has never been before the public as a candidate by any word or act of his own, and he most certainly will not order his name withdrawn. A very large class of the American people have chosen to make him a candidate, and if the Republican Convention sees fit to tender him the nomination he will not decline.
